Who we are

Polymer Comply Europe is a service provider for the plastics industry specialized in EU legislation. Since 1989, within the group of the European Plastics Converters association, we have been closely working with industry developing an in-depth knowledge and wide experience in EU Regulatory Compliance, Association Management and Projects & Studies.

Due to increasing complexity of EU legislation, companies need more legal and technical advice. Companies involved in the plastics industry need support on how to cope with this burden and our team can provide you with the best expertise and knowledge.

You need proper advice from the best EU advisors. For this we decided to develop a pool of EU plastics experts under our service company Polymer Comply Europe, based in Brussels.

Polymer Comply Europe helps you with its extensive European network in order to bring the right solutions to your business.

Your Network

Association Management

Are you looking for a way to extend your network?

PCE offers professional support to specific EU plastics representation groups and associations based in Brussels. Our team of experts will help you to successfully manage and develop your European industrial representation in order to link you to the EU decision making process.

Who will benefit from the PCE Association Management service?

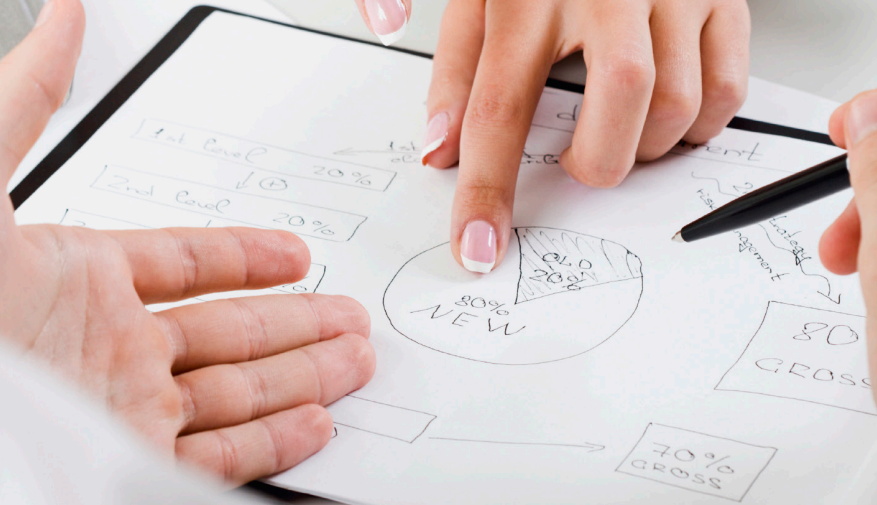

Any EU wide sector in the plastics converting, compounding or recycling activity may benefit from our expertise and network in Brussels and Strasbourg.

What does the Association Management service offer?

A tailored response will be given to any of your needs:

- Legal entity management & Governance
- Membership management & Development
- Secretariat & Administrative support
- Compliance with EU competition law
- Sector issues management
- Meeting & Office room rental

Your Solution

Projects & Studies

Are you looking for efficient solutions to grow your business?

We offer expertise and support to enhance your engagement as a front runner of the plastics industry. We analyse each customers' needs to find the right solutions adapted to their requirements.

Who will benefit from the PCE Projects and Studies service?

Our expertise will increase companies and associations awareness of upcoming EU legislative and market changes. This expertise will allow you to take sound strategic decisions and to enhance your communication.

What does the PCE Projects and Studies service offer?

Our team supports you to seize strategic advantages through our tailor-made services:

- Specific EU legislative monitoring
- Public affairs and advocacy
- Trade defence instruments
- Market data analysis
- Events management
- EU Funds: finding the proper funding scheme and project management

Your Advisor

Regulatory Compliance

Are you looking for an expert on REACH or Food Contact?

We follow all the process with you. We guide you on the preparation of Registration dossiers and the following steps required, we also support you in phase of Evaluation and Authorisation.

Who will benefit from the PCE Regulatory Compliance service?

All companies active in plastics (converting, compounding & masterbatching and recycling) and which need support in this field can be helped by our experts.

What does the Regulatory Compliance service offer?

- Reach Inspection Audit Service
- Safety Data Sheets for Plastics Recycling (this tool gives recyclers access to generic and Tailor-made Safety Data Sheets (SDS) when they enter information about their company and the type of waste they recycle)
- Exposure and risk assessment for food contact applications (matrix tool and FACET software)
- Reach Consortium Management Service
- Trainings and Consulting Services
